

BULLNOSE SOLID COMMERCIAL GRADE Composite Decking Board 4m

Cladco bullnose boards compliment the composite decking products on offer and are an attractive way to finish the edge of your deck. Like the rest of the Cladco range of composite decking boards, these bullnose commercial boards are reversible, with one side flat surfaced and the other using a recommended narrow grooved design to give a low-slip and easy to maintain surface.

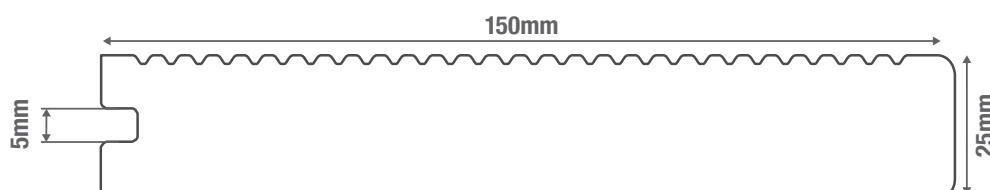

Available in a range of colours to match your Cladco composite decking boards, including Redwood, Olive Green, Ivory, Teak, Coffee, Charcoal, Light Grey and Stone Grey. Cladco bullnose solid composite decking boards are made in the same way as the rest of the composite boards.

All Cladco composite decking products are available as FSC® certified for the same cost. If you require FSC® certified products please ask for these when placing your order.

Why Use Cladco 4m Bullnose Decking Boards

When you need to give your decking design a great finish to its borders, that's where you'll need to incorporate Cladco bullnose decking boards. Designed to fit the edges of your decking plan and offer an attractive option for any steps you are incorporating, these solid composite decking boards are extremely versatile and can be used for commercial purposes.
