

FIBRE CEMENT

Exterior Wall Cladding 3.66m

Cladco Fibre Cement Wall Cladding Boards are high-quality, low-maintenance and fade resistant, and come with a 10-year guarantee. Fibre Cement Boards are available in a range of seven colours as well as an unpainted option. Cladco Fibre Cement Wall Cladding is a high-quality product manufactured using advanced technology to provide the chemically-bonded Boards resistance to a range of impacts, including the elements, rot, and insects. The Boards are easy to install with a feather board effect using 45mm Screws.

Fibre Cement is an adaptable Cladding material

- Cement, made with clay, iron and limestone creates the foundation of the Boards
- Sand adds resilience and weather-resistant properties
- Cellulose fibres make up the interior composition increased strength and integrity
- Water activates the ingredients and binds them together, with additives and chemicals

Advantages of Fibre Cement Wall Cladding

- Easy to install – designed to be installed horizontally with a feather board effect and 30mm overlap on each Board.
- Low-maintenance – manufactured with enhanced durability. Boards do not need to be sanded, varnished or painted.
- Resistant – due to their properties, Boards are resistant to rot, pests, and insects.
- UV-resistant – the colours of the Boards are fade resistant.
- Unique colour finish – available in a range of seven colours and unpainted, each coloured Board has three layers of paint baked-on for a hard, durable finish with no extra effort or painting required.

The durable, wood-like aesthetic of Fibre Cement Cladding Boards will leave your home with a hassle-free, timber-looking design. Fibre Cement Boards, unlike timber, are not susceptible to rot, mould or pests and come in a selection of attractive colours.

The advanced technology used to create the Fibre Cement Boards will protect your home from wind, rain and hail, whilst also adding a contemporary and modern look to the exterior of your home.

Each Cladco Fibre Cement Cladding Board covers 0.65m². The Boards can be cut to fit around windows and doors, however, safety regulations must be followed. When cutting Cladco Fibre Cement Boards, only use a wet saw and wear a Level P3 Respirator.
