

# ALUMINIUM Hidden Decking Clips and Screws

Cladco Stainless Steel Clips provide a hidden connection between Aluminium Decking Boards by tightly securing into the side grooves of the Boards, and joining them to the next.

Our M4x30 Stainless Steel Self Tapping Screws will provide a secure and accurate fit. These screws should not rust or corrode once installed. They are strong, durable and made from high-quality stainless steel, ensuring that the Aluminium Decking Boards will not crack or splinter around the screw's entry point.

M4x30 Stainless Steel Screws do not need a pre-drilled pilot hole as they have a TEK type tip.

We recommend one pack per installation project as a guideline.

| SPECIFICATIONS |                 |
|----------------|-----------------|
| Screw size     | M4              |
