

ALUMINIUM Decking Starter Clips

Cladco Stainless Steel Decking Starter Clips provide an accurate and precise fitting for Aluminium Decking Boards when installing against a wall or a fence.

Made from precision-cut stainless steel, our Aluminium Decking Starter Clips are manufactured to last, being both durable in design and purpose, with increased corrosion and wear-resistant properties.

We recommended using 25mm stainless steel screws (not included) to fix these Starter Clips in place.

Packs contain 50 Aluminium Decking Starter Clips. We recommend one pack per installation project as a guideline.
