

COMPOSITE AFTERCARE OWATROL COMPO-CLEAN

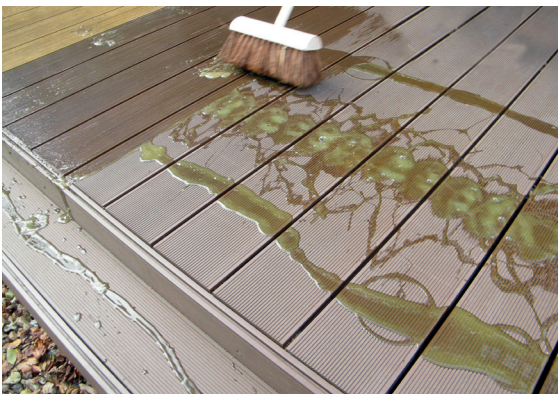

Maintaining your Cladco Composite Decking Boards is made easier using the right product to clean it with. Compo-Clean from Owatrol is a Composite Decking cleaner and works for all types of exterior composite wood, on either a horizontal or vertical surface. Its fast-acting solution will make light work of maintaining your project and can be easily applied with a brush or roller straight from the bottle.

The gel consistency will not drip or run making it ideal for vertical and horizontal surfaces and can be used as a degreaser as well as a cleaner. Its water-based solution makes it environmentally friendly and gives peace of mind when using near plastic pool liners, stone, cement and other materials nearby to your Cladco Composite Decking or Composite Cladding.

Manufactured from a biodegradable, water-based solution, Compo-Clean works hard to refresh your Composite Decking area. All you need is a brush or roller to get started and a hose or pressure washer to rinse.
