

MAGNETIC PHILLIPS IMPACT SCREWDRIVER BITS PH2

These Impact Screwdriver Bits are perfect for installing Cladco Decking® T-Clips and Stainless Steel Clips.

1/4in Hex Drive Impact Screwdriver Bits are specifically designed for use in high torque impact drivers. Uniquely manufactured from specially engineered materials for extreme durability, these Bits have an increased working life compared to standard screwdriver bits.

Impact Bits are designed to distribute impact evenly, preventing energy waste for efficient driving. These Bits incorporate torsion areas to absorb torque peaks and reduce stress at the Bit tip during heavy loading. All Bits feature a precision-machined tip to provide an optimum fit, helping to prevent screw stripping and cam-out.

SPECIFICATIONS	
Size	PH2 x 65mm
Pack Size	3
Material	High grade steel
