

SPEEDDEKZ 316 STAINLESS STEEL SCREWS

When you need to secure your Cladco Timber and Solid Core Composite Decking Boards properly, look no further than SPEEDDEKZ 316 Stainless Steel Decking Screws. Designed to be strong and easy to use, these Decking Screws offer superior quality and are fully threaded for easy self-drilling application.

These Stainless Steel Decking Screws will enable the easy drilling through Cladco Timber and Solid Core Composite Decking Boards to ensure that they will not split, giving peace of mind during installation. Because of this, there is no need to pre-drill so you can apply directly through the Decking Boards, where needed.

Decking Screws Designed To Make Installation Easy

For use on Timber or Solid Core Composite Decking Boards, SPEEDDEKZ 316 Stainless Steel Decking Screws are made from marine grade 316 stainless steel and have a unique 'no-squeak' ring clamp thread design. Available in a pack of 100, they are available in two sizes - M5.5 x 65mm and M5.5 x 50mm, and include a driver bit for your drill to ensure the correct fitting.
