Low-Maintenance  
And Easy To Clean

### MATERIALS

Capped Composite  
Wood-Plastic Blend  
– Made from 60%  
hardwood fibres and  
40% recycled plastics  
for a durable and  
sustainable finish.

### SURFACES

The Corner Trims  
feature a plain, smooth  
surface, providing a  
clean and  
modern aesthetic.

### ACCESSORIES

Available accessories  
include Composite  
Slatted Wall Cladding  
Panels, Internal Corner  
Profile Trim, External  
Corner Trim, Start  
Profile Trim, and Double  
End Profile Trims for a  
complete and  
seamless installation.

### LOW MAINTENANCE

Our Trims are designed for  
long-lasting performance,  
offering resistance to  
weathering, staining, and  
mould. Their rot-resistant  
properties ensure a  
durable, low-maintenance  
finish, enhancing the  
longevity and appeal of  
your Cladding project.

### INSTALLATION

Designed to complete  
your Cladding project,  
our Internal Corner Trims  
sit securely on top of  
Composite or Timber  
Battens, allowing Cladco  
Slatted Panels to join  
together seamlessly  
for a professional and  
polished finish.

## GENERAL CLEANING

For everyday debris such as leaves, berries, plants, and animal droppings, simply clear the surface with a brush. Regular maintenance is recommended to keep your Cladding clean and in the best condition.

To clean, mix a light detergent with lukewarm water and use a soft cloth or brush to gently remove dirt and buildup from the Cladding Panels.

## NATURAL WEATHERING

Cladco External Wall Cladding is designed with an encapsulated, non-porous outer layer, providing protection against weathering, water, and UV damage. Over time, some natural weathering may occur, depending on location and sunlight exposure. This process is normal and part of the material's natural character, ensuring long-term durability and performance. This is a normal process and part of the natural character of the material.

## RECYCLED MATERIALS & SUSTAINABILITY

Cladco Capped Composite Corner Trims are manufactured using recycled materials, helping to reduce environmental impact. Each Trim is made from 60% recycled hardwood fibres and 40% post-consumer recycled plastics, offering low-maintenance and long-lasting benefits.

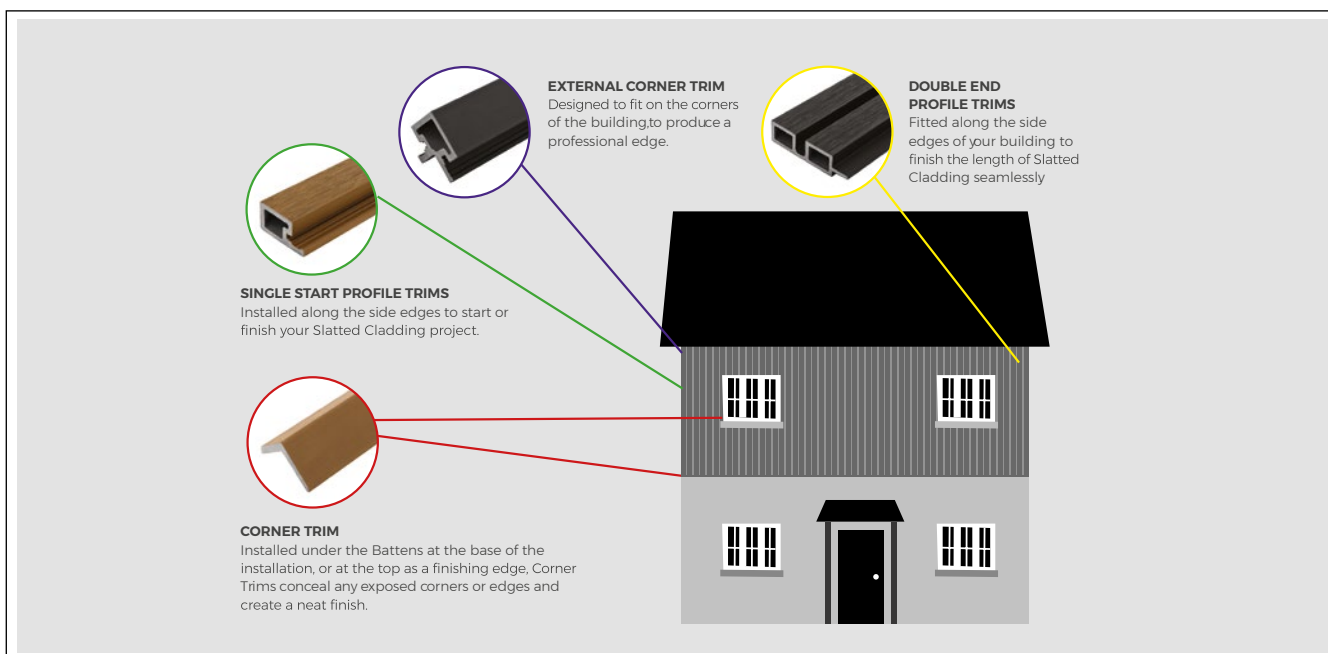

To enhance durability, additional bonding agents are used to create a strong composite core, which is then capped with a hard-wearing outer layer for superior protection.

All Cladco Composite products are available as FSC® certified at no additional cost. If you require FSC® certified products, please request this when placing your order.

## INTERNAL CORNER TRIM INSTALLATION ADVICE

Secure Slatted Wall Cladding Panels at inward-facing corners with Internal Corner Trims, designed for a seamless and professional finish. Manufactured from the same Capped Composite material as Cladco Slatted Panels, these Trims ensure a consistent and durable installation.

Designed to complete your Cladding project, Internal Corner Trims sit on top of the batten substructure, allowing Slatted Panels to join together effortlessly. Featuring a smooth, plain surface, they provide a clean and polished appearance.

Adhering to these guidelines will ensure the proper installation and longevity of your Slatted Cladding Project. Failure to follow these guidelines may void the product warranty.

For full installation details, please refer to our External Slatted Cladding Installation Guide.
