

STANDARD TARPAULIN

170gsm

As a mid-grade sheet, our Standard Tarpaulins feature a 3x3 multifilament grid which is laminated in low-density polyethylene and are suitable for covering a variety of goods and tools on construction sites, ongoing building projects, items in outside storage and more. With a heavier structure than our Lightweight Tarpaulins, Standard Tarps are suitable for longer-term outside use in comparison, whilst still being designed as a temporary cover.

12mm aluminium eyelets are spaced at 1m intervals across the rope-reinforced hems, with the sheets being UV stabilised, shrink-proof and mildewproof. Our 170gsm Standard Tarpaulins include plastic corner reinforcements for added strength and are available in a variety of sizes.

Benefits of Standard Waterproof Tarpaulin:

- 4 sizes available*
- 170gsm
- Suitable as a temporary covering for a variety of applications
- 3x3 multifilament grid
- Plastic corner reinforcements for added strength

Sizes Available	4m x 6m, 4m x 10m, 8m x 10m, 10m x 17m
Colour	Green
Weight	4.1kg (4m x 6m), 6.8kg (4m x 10m), 13.6kg (8m x 10m), 30kg (10m x 17m)
Coverage	24m ² (4m x 6m), 40m ² (4m x 10m), 80m ² (8m x 10m), 117m ² (10m x 17m)

*All our Tarpaulin sheets are cut sizes, which is industry standard terminology for the size of the material before it is formed into a tarpaulin. This means that when seams and hems are taken into consideration, the final size can be up to 30cm-45cms shorter.

PLEASE NOTE - The bigger the Tarpaulin, the more support it will require. Always ensure that the Tarpaulin is suitably supported according to its size.
