

PREMIUM WOODGRAIN EFFECT CAPSTOCK PVC Decking Board 3.6m

Cladco PVC-ASA co-extrusion technology is a new generation of premium PVC decking. Wood Free but still gives a natural wooden effect without the concerns of fading, staining or scratching and comes with a 25-year structural guarantee.

PVC Decking has a dense PVC core which is encased in ASA (acrylic-styrene-acrylonitrile) which is the most weather-resistant resin currently available on the market, providing superior strength and resilience.

PVC-ASA decking is the superior synthetic decking material choice and competitively priced on the market. Unlike most traditional decking solutions, it provides a luxury embossed finish, colour and texture, Cladco PVC Decking is available in 6 colours.

Advantages of PVC-ASA Decking Material

ASA is the best weather-resistant resin available on the market, Cladco PVC decking will not fade and is 100% UV resistant, used by premium auto manufacturers for car parts it's designed for use in all weather conditions. It's resistant to moisture, mould, mildew and will not rot.

Cladco PVC Decking can be installed low to the ground and in very damp areas due to the PVC-ASA moisture-resistance properties. Building a decked area from this material that is low to the ground or where it will come into contact with moisture such as around pools, under or near a hot tub will cause no issues. PVC-ASA can stand up to both moisture

and any harsh chemicals that it may come into contact with.

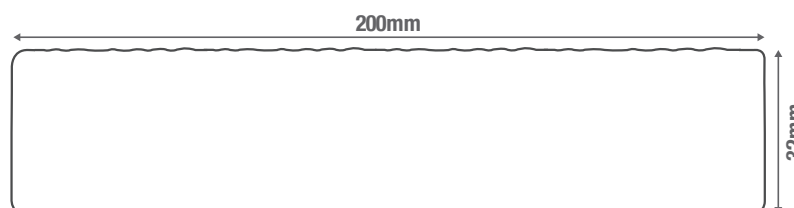

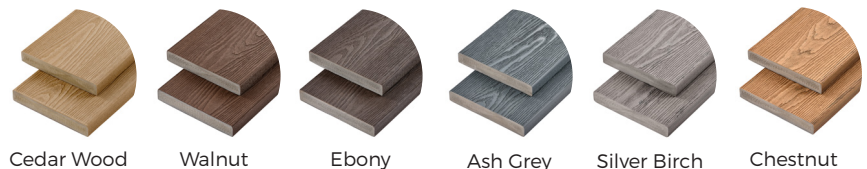

Cladco PVC-ASA is incredibly strong and will not easily scratch or stain, it will not suffer from everyday wear and tear and because the material is not porous, stains should just wipe right off.

Due to the advance nature of the PVC Decking composition, it looks more like natural wood than any other synthetic decking materials available.

PVC Decking is low maintenance simply wash it with soap and water regularly, and an occasional pressure wash will help the deck continue looking great for years. Compatible with traditional and hidden fastening methods.

SPECIFICATIONS	
Board Length	3.6metre
Board Width	200mm
Board Thickness	32mm
Each board weighs approximately	14.53kg
