

MAGNETIC LATCH FOR GATES BALUSTRADE SYSTEM

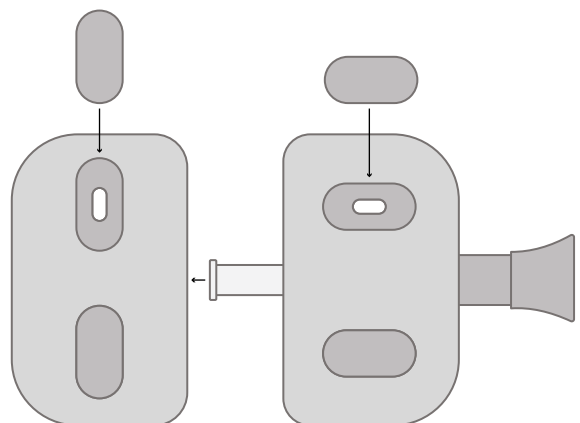

Cladco balustrade latch provides a secure and reliable closing solution for Cladco balustrade gates and handrails. Designed for flexibility, the latch can be easily installed on either left or right-hinged gates, offering both safety and convenience. Its durable construction and simple installation make it an ideal addition to any balustrade system.

MATERIALS

Manufactured from a durable polymer and stainless steel for lasting strength and corrosion resistance.

SURFACES

Clean and smooth finish with dress caps to complete your installation.

ACCESSORIES

Designed for Cladco balustrades, this latch installs easily with components fixed to gate and post.

LOW MAINTENANCE

The latch is low maintenance and can be easily cleaned by simply wiping it down if it gets dusty or dirty.

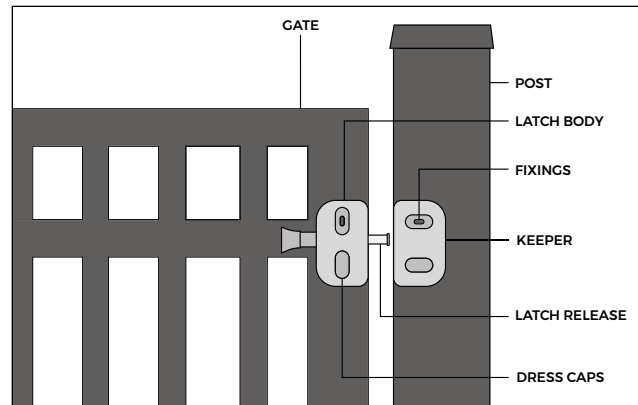

LONG LASTING

The material makes the end caps a long-lasting addition to your balustrade system.

INSTALLATION ADVICE

To install the gate latch, begin by fixing the keeper to the post. Next, attach the latch body to the gate, ensuring both components are aligned and level. Once secured, fit the dress caps over the fixings for a clean, seamless appearance. The latch release then connects magnetically to the keeper and can be pulled to open the gate.
